Clinic Outline

- Overview: This will be the second clinic in the series for Officials and/or participants. We will review the basics we went through in the first clinic, but more time will be spent on video judging/practice. We will start with a single act at a time similar to the first clinic, but in this second clinic we will build into judging a sequence of acts in order to give better examples of overall judging experience.
- Introductions
- Review of IWWF Show Ski Rules
- Review of Officials Roles & Responsibilities
- Overview of the Tournament Scoring Model (*Note: Not the scoring application*)
- Judging Acts
 - Review Act Score Components (Flow, Execution, Difficulty, Spectator Appeal)
 - Review of Difficulty Charts and How to Apply
 - Video Practice Judging Acts (from previous tournaments)
- Judging Box Scores
 - Review Box Score Components & Definitions
 - Video Practice - Judging Box Scores (from previous tournaments)

- Judging Combined
 - Video Practice - Judging a Sequence of Acts for using "Acts" & "Box Scores" combined (from previous tournaments)
- Summary Wrap Up with Q&A

The majority of the time will be spent applying rules and scoring definitions to actual ski show video scenarios. Interactive video training has proven to be the best method to educating judges in the past when we can't do live in-person training.

I look forward to seeing everyone and having lots of discussion. We will obviously cover the officials roles & responsibilities and spend as much time on "practice" judging via videos of previous shows. If you have any questions or if there is anything specific they want covered, please e-mail me at lieven.hardy@hardy.be to let me know.

Thank you.

Regards
Lieven Hardy
